

DEFA SmartCharge

Consumer-grade battery charger for lead-acid batteries: Flooded, calcium, GEL, AGM, EFB

Easy to use
SmartCharge only has one button. All you need to do is fasten the clamps on the battery, connect the charger to your outlet and press 'On'. SmartCharge automatically provides optimal charging for your battery.

Complete safety
This is a charger that everyone can use. SmartCharge automatically detects whether the clamps have been mounted incorrectly and is fully secured against reverse polarity, sparks and short-circuiting.

Practical storage solutions
Now you don't have to store your cables in a pile. SmartCharge has an integrated cable storage solution and a practical way to fasten the clamps when they are not in use. Bring SmartCharge with you wherever you go.

Built-in Powersupply
The Powersupply function helps you protect the settings in your car when you need to disconnect or change your battery. Powersupply produces 13,6V and is activated by pressing and holding the 'On' button for 5 seconds.

Handy accessories
SmartCharge accessories makes it even easier to monitor and charge your batteries. Accessories with ring terminals can be permanently mounted on your battery, so you don't have to access the battery every time you need to charge it.

- » Easy-to-use battery charger
- » Battery analysis in advance
- » Automatic selection of the ideal charging current
- » Careful, full charging
- » Reverse polarity protection
- » Overheating protection
- » Non-sparking

DEFA SmartCharge 4						
Item No.	Voltage	Ampere	Scope	Length mm	Width mm	Height mm
DEFA-SC-4	12 V	1-2 oder 4 A	2 AH - 110 AH	210	90	54

DEFA SmartCharge 6						
Item No.	Voltage	Ampere	Scope	Length mm	Width mm	Height mm
DEFA-SC-6	12 V	1-2-4 oder 6 A	10 AH - 150 AH	210	90	54

DEFA SmartCharge 8						
Item No.	Voltage	Ampere	Scope	Length mm	Width mm	Height mm
DEFA-SC-8	12 V	2-4-6 oder 8 A	20 AH - 200 AH	235	90	54

DEFA SmartCharge 10						
Item No.	Voltage	Ampere	Scope	Length mm	Width mm	Height mm
DEFA-SC-10	12 V	2-4-6-8 oder 10 A	30 AH - 250 AH	235	90	54

Accessories		
Item No.	Picture	Description
DEFA-SC-STATUS		Charge status for 12 V socket (only works with continuous pulse) Simple battery monitoring via on-board voltage sockets / cigarette lighter sockets that are connected to continuous pulse.
DEFA-SC-OESE		Charging cable with eyelets including LED charge status display Ideal for batteries that are difficult to access - for permanent installation
DEFA-SC-SET		Charging cable set (12V socket + eyelets) For simple vehicle and battery monitoring and charging
DEFA-SC-ZANGE		Charging cable with battery clamps including LED charge status display Easily accessible charging socket for permanent installation + charging cable
