BOOST MAX™ Protective Case

For GB500

NOCO
Boost Accessories™

Rugged storage.

Protective case designed exclusively for The GB500 Boost MAX™ Jump Starter. The durable **GBC016** Boost MAX Protective Case has a semi-rigid custom exterior with zipper closures, reinforced handle, and shoulder carrying strap. The reinforced EVA base offers protection from moisture, impact, dust, and other environmental factors. The molded interior perfectly fits, stores, and protects the NOCO GB500 Boost MAX UltraSafe jump starter. The **GBC016** case has additional pockets for carrying accessories. Protect your GB500 in your vehicle, garage, and on the go.

Reinforced pockets for securely holding clamps, 12V & charging accessories.

Quick Release buckles hold the protective faceplate open for easy access to the GB500's interface.

Heavy-duty zippers with ergonomic pull tabs.

Lightweight foam structure protects the GB500 from all directions.
