

RE **Li³** ABLE POWER
THAT'S READY TO GO

RE **Li³** ON[®]

FEATURES AND BENEFITS - LITHIUM

NON-HAZARDOUS

No gasses emitted.

CHARGING - FAST & SAFE

Highly efficient charging. Can fully charge in 1-3 hours. Built-in overcharge protection.

LIGHTWEIGHT

50-60% less weight than lead-acid equivalent.

MAINTENANCE-FREE

Plug, play and charge. No watering.

LONGEST LIFE

Up to 10X longer cycle life than lead-acid equivalent.

CONSTANT POWER

Full power available throughout discharge. Voltage does not drop like lead-acid.

ENJOY RELIABLE, LONG-LASTING POWER,
while protecting the environment. RELiON's
non-hazardous LiFePO4 batteries are a clean energy
storage solution, made of an inherently safe chemistry.

Power that is *Driven to Perform*

Nothing says you're dedicated to green energy like owning an electric vehicle for work or play. With an eco-friendly RELiON lithium iron phosphate (LiFePO4) battery, you can enjoy the ultimate clean energy that emits no gasses, fumes or pollution. Enjoy reliable, long-lasting power, while protecting the environment.

MORE HOURS OF POWER: At half the weight and 2-3 times the energy of traditional lead-acid batteries, RELiON lithium batteries provide more hours of driving for your EV application. Your EV will maintain a constant level of power, morning, noon and night (and the next day, as well). Explore further afield, play another round, or power through yet another shift with no worries.

WORRY-FREE: RELiON lithium batteries are maintenance-free – no watering, no corrosion. In addition, they can be charged more quickly using standard plugin, alternator, generator, or solar systems. Partial charging does not affect performance, and a low self-discharge rate means worry-free storage and high performance at the beginning of every season.

THE RIGHT FIT: RELiON lithium batteries are available in a variety of BCI standard sizes for easy drop-in replacement. Looking for a custom solution? No problem! Our engineers can design the best system for your needs.

EXTREME PERFORMANCE: RELiON lithium batteries are designed to perform in harsh conditions, be it freezing cold, scorching heat or rough terrain.

SAFETY TESTED: Unlike other lithium chemistries, RELiON LiFePO₄ batteries are inherently safe due to their stable chemical composition, and we have the UL1642 and IEC62133 test results to prove it.

BACKED BY THE BEST: Built to last, designed to perform, premium RELiON lithium batteries deliver unsurpassed performance. We back this claim with a comprehensive, 5-year warranty.

RELiON's new **InSight Series** is a
GAME CHANGER
when it comes to delivering
reliable power.

What makes **InSight Series Unique?**

SUPERSMART BMS

The SuperSmart BMS maximizes performance, even when connected in parallel, eliminating the need for any additional hardware.

BULLSEYE BALANCING

The innovative algorithms in the SuperSmart BMS ensures precise balancing. This provides maximum capacity and life in each battery when they are connected in parallel.

INTELLIGENT COOLING

The InSight Series uses a carefully engineered passive heat management system to quickly remove heat from inside the battery during conditions of high discharge and recharge currents, preventing over-heating of critical components.

Product Specifications

InSight Series batteries come in 12-Volt, 24-Volt, 36-Volt, and 48-Volt configurations. These modules are an ideal building block for a wide variety of applications.

Part Number	12V120-GC2-001	24V060-GC2-001	36V030-GC2-001	48V030-GC2-001
Voltage	12.8V	25.6V	38.4V	51.2V
Capacity	120Ah	60Ah	30Ah	30Ah
Charge Current	120A	50A	50A	50A
Continuous Discharge Current	200A	150A	100A	100A
Discharge Current (30s)	300A	275A	125A	125A
Maximum Discharge Current (10s)	350A	300A	150A	150A
Dimensions (LxWXH)	10.2x7x10.9" (260x180x276 mm)	10.2x7x10.9" (260x180x276 mm)	10.2x7x10.9" (260x180x276 mm)	10.2x7x10.9" (260x180x276 mm)
Weight	27.8 lbs (12.6 kg)	27.8 lbs (12.6 kg)	22 lbs (10 kg)	27.8 lbs (12.6 kg)
